EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with E. R. Hernandez on 12/19/2007.

2. The application has been amended as follows:

Please amend claim 1, line 6 change "an image data transmission" to – the image data transmission –

Claim 9, line 6, change "an image data transmission" to – the image data transmission –

Claim 14, line 13, change "an image data transmission" to – the image data transmission –

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 3, 5-15, 17, and, 18 are allowed.

The present invention is directed to a method for reducing formation on a liquid crystal display device occurring when the display is turned off. Each independent claim identifies the uniquely distinct features transmitting an image signal to the display, turning off the image data transmission and then turning on a plurality of thin film

transistors on the display before turning off the power of the display. The closest prior art, Yanagisawa et al. (USPN: 6621489) and Lee et al. (USPN: 7109965) disclose methods of reducing residual images on a display by transmitting a specific image signal or turning on a plurality of transistors before turning off the power of the display, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571) 272-7903. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
